Design-Driven Front-End Developer

SUMMARY

Design-Driven Front-End Developer with 3+ years of experience in designing and building responsive, high-quality web applications using Figma, HTML, CSS, Tailwind CSS, and JavaScript. Passionate about translating thoughtful UI design into clean, maintainable code, with a strong focus on usability, performance, and visual clarity. Backed by a full-stack background, I bring a strategic approach to front-end development, collaborating effectively and delivering scalable web solutions.

WORKEXPERIENCE

Front-End & UI Developer (Design-Focused, Full-Stack Background)

Sepehr Afrooz Saba — Aug 2023 – Present | Full-time

- Designed and developed internal web applications with a strong focus on UI/UX and responsive design.
- Translated Figma designs into clean, maintainable front-end code using HTML, Tailwind CSS, and JavaScript.
- Implemented full-stack solutions with Laravel, ensuring scalable architecture and smooth front-back integration.
- Contributed to redesigning existing web systems, improving usability and overall user experience.

Teaching Assistant – Computer Networks

Sep 2022 – Jul 2023 | Part-time

- Supported students during labs and coursework, strengthening communication and problem-solving skills.

Early Technical Experience (Freelance)

Afshid Khazar Technology Group — Jul 2022 – Jan 2023

- Gained foundational experience in technical systems, problem-solving, and translating requirements into practical solutions.
